

Victorious Colliers team holds title in the heat of Baierbrunn

The Colliers team kept the promise they had made last year! At this year's football tournament hosted by Hammer AG and temperatures of above 30°C, the team, led by Achim Degen, kept a cool head and confidently defended the cup they had won the previous year. In the long cup-history, no other team had yet managed to win the cup twice in a row.

In an impressive manner and still with a clean sheet, they beat the team of GSK, the football association BNP Paribas Real Estate / Savills as well as the home team Hammer AG. Merely the team of CBRE was able to stand up to the Colliers team and force a goalless tie out of them in the first game. In contrast to last year, when first and foremost their really tough defense was the team's showpiece, also the offensive was able to score this time. With a total of eight goals out of four games, they were clearly demonstrating that the teamwork between defense and offensive worked out particularly well this year.

Especially the lawyers of GSK, who had already won two games in this tournament, had to feel the dangerousness of the Colliers team which beat them clearly with 4:0. The team Hammer AG, too, had to admit defeat; they lost 3:0. The only time Collier's effectiveness was more reflected in the fight than in the result was in the narrow 1:0 victory over BNP Paribas Real Estate / Savills.

At the victory celebration, Hans Hammer handed over the cup to the obviously proud team leader Achim Degen. As last year, he promised that the Colliers team is going to go "cup-hunting" and defend the title again next year. This statement made the other teams jump...
